| Customer No.: | 21559 | | |
| Title: | METHOD FOR PRODUCING GENE TRANSFERRED DENDRITIC CELLS | | |

Mail Stop PCT
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

INFORMATION DISCLOSURE STATEMENT

Applicants submit the references listed on the enclosed Form PTO-1449, copies of which are enclosed, with the exception of U.S. patents and U.S. patent application publications. Also enclosed is a copy of a search report from a corresponding European application.

WO 97/16539, WO 00/70055, WO 00/70070, WO 03/025570, WO 03/029475, and WO 2004/038029, and Japanese Patent Application Nos. JP 2000-253876 and JP

2002-272465 are written in the Japanese language. English language translations of these documents are enclosed.

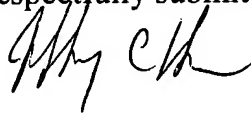

Kunisawa et al., "Application of Novel Drug Delivery System, Fusogenic Liposome, for Cancer Therapy," *Jpn. J. Cancer Chemother (Gan To Kagaku Ryoho)* 28(5):577-583 (2001) is written in the Japanese language. An English language "Summary" appears on pages 577-578 of this reference.

Submission of this statement is not a representation that a search has been made, nor is the inclusion of information in this statement an admission that the information is material to patentability.

This statement is being filed before the receipt of a first Office action on the merits. If there are any charges or any credits, please apply them to Deposit Account No. 03-2095.

Date: March 14, 2007

Respectfully submitted,

Jeffrey P. Kessler
